

Our children deserve the best educational experience possible to prepare them for future personal and professional success and well-being. With this goal in mind, The Foundation at Great Valley was established to unite community resources to enhance and enrich the learning opportunities available to more than 4,000 Great Valley School District students. The Foundation at Great Valley is a newly formed, independent, non-profit, education foundation developed by a dedicated group of volunteer community and business leaders, retired corporate executives and educators.

The Foundation at Great Valley encourages the community to be active participants in student education through philanthropy. By securing funds, resources, and knowledge from the private sector, The Foundation hopes to provide educational, cultural, athletic and wellness initiatives that may not normally be supported by the school district's budget.

The Foundation works in partnership with the Great Valley School District to continue to ensure that students' educational experiences are rich in opportunities, deep in experience, and equal for all, regardless of income. Examples of initiatives supported by the Foundation:

- After school and summer enrichment programs
- Endowments to specific departments or areas of study
- Literacy and tutoring programs to help those with special needs
- Art and Music enrichment
- Innovation in the classroom through teacher grants
- Enhanced support for athletic programs
- Projects that promote cultural diversity
- Communication and Technology initiatives

When our community bridges with our schools, we will be helping our children reach their potential and become stronger citizens in our society. Our future can be influenced through the life of every child.
